

An aquafeed additive including plant extracts to maximize intestinal health & anti-pathogen effects and improve water quality in aqua ponds

Active ingredients:

- Licheniformis**
- Lactobacillus Plantarum**
- Bacillus megaterium**
- plant extracts (Polyphenolic)**

Philo Aqua

- 01 Maximizes performance in aqua
- 02 Supreme water quality
- 03 Controls aqua waste in ponds
- 04 Reduces toxic gases (NH₃, NO₂ etc.)
- 05 Prevents aquaculture diseases
- 06 Anti-oxidant activity
- 07 Anti-bacterial activity
- 08 Healthy intestine & powerful digestibility
- 09 Easy to apply due to soluble characteristic

Recommended dosage / usage : **for performance** 1-3kg per ton of feed
for water quality 1kg per 10,000 – 15,000 m³ per 7-10 days (pond), repeat applying weekly until harvest
